Membership Rules

Tiers

There's a tier of membership for any business, organization, or individual. Contact us to help find the right fit for you.

Advisory Member

Advisory Members are organizations that want to drive and deliver wireless, peer-to-peer technologies to the market. You are an organization classified as an Original Equipment Manufacturer (OEM), service provider, Hotspot deployer, academic institution, or other B2B and B2B2C company. You are a key builder and already support strategic partnerships to grow the ecosystem.

Operating Member

Operating memberships are for organizations that want to drive and deliver wireless, peer-to-peer technologies to the market. You are an organization classified as an Original Equipment Manufacturer (OEM), supply chain and logistics company, service provider, or other B2B and B2B2C company. You are a key builder and already support strategic partnerships to grow the ecosystem.

Enthusiast Member

Enthusiast Members are the bedrock of membership. You are a passionate individual and Helium hotspot super host. Whether you are new to the ecosystem or a long-time supporter of peer-to-peer wireless networks, you want to support the Foundation and become an important voice in the Network. This tier is not eligible for organizations.

Membership Benefits:

As a member, your contributions and collaborations to the decentralized, wireless, peer-to-peer network ecosystem are elevated and amplified.

Benefits of each membership type include:

* Available in accordance with company membership policies.

Becoming a Member

Foundation Membership aligns your organization with the forefront of wireless and blockchain innovation.

You'll have access to various marketing opportunities, have eyes on the latest developments, and help drive development priorities. Membership is available to all geographies, subject to any restrictions from OFAC sanctions.

The best members share the following characteristics:

1. Demonstrate a long-term alignment to all peer-to-peer, decentralized wireless networks and their health, integrity, and scale.
2. Demonstrate relevant background in the wireless industry or blockchain technology space.
3. Provide products and services relevant to the future of peer-to-peer, decentralized wireless networks.
4. Demonstrate a passion and interest in developing product and service offerings for all peer-to-peer decentralized wireless networks.

BECOMING A MEMBER IS SIMPLE.

1. Apply using the form on helium.foundation/membership.

2. Determine an agent or contact to act on behalf of your organization, or choose yourself.
3. Follow all instructions on the form and demonstrate you or your organization's relevant experience, knowledge, and commitment.
4. List any relevant referrals or references.

Email **membership@helium.foundation** with questions.

The Foundation will review applications based on the qualifications listed above and welcome our new members on a rolling basis.
